Issue No. 726

Budding designers from FDDI to get a boost through Bata's 'Young Designer's Challenge 2019' competition

Bata is launching 'Young Designer's Challenge 2019' competition for budding designers from prestigious institutes like Footwear Design & Development Institute (FDDI) and National Institute of Fashion Technology (NIFT).

Mr. Mathews, Head Designer, Bata providing design brief to the student of FDDI, Noida campus

The objective of this 'Young Designer's Challenge 2019' competition is to discover young, talented designers from footwear and design institutes, provide them with exposure and opportunity to succeed on a large scale, testing their acquired skills and work on a commercial project.

To launch the 'Young Designer's Challenge 2019' competition and to provide the design brief to the student of FDDI, Noida campus, the design team from Bata along with their Head Designer from Italy, Mr. Mathews visited the institute on Friday, 26 April 2019.

Mr. Mathews, through a presentation briefed about the criteria for selecting the winning design, process and timelines and how to register online through the available link: <https://forms.gle/CM7Wq8NhtHD4CpcNA>. Around 150 students attended the design brief.

The information about the same is also circulated to the other campuses of FDDI located at Fursatganj, Chennai, Kolkata, Rohtak, Chhindwara, Guna, Jodhpur, Ankleshwar, Banur, Patna and Hyderabad so that all the interested students may participate in this competition.

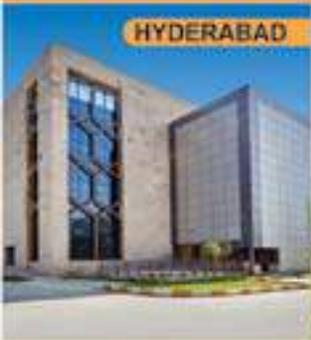

For participation in this competition, the students have to register themselves online for the initial design brief. Students from any stream may participate. The shortlisted design students will be working under the mentorship of Bata professionals and the project may also be treated as research/design project for the

to the environment, sustainability, ethics and to do the circular economy.

GSFW 2019 was inaugurated by Mr. Jeff Garner, Featured Fashion Designer from USA. Mr. Garner has vivacity and commitment of creating distinctive, sustainable, eco-friendly fashion. Beside this, Mr. Georg Andreas Suhr, designer from Germany and owner of brand COCCON, Mr. Jocelyn Chen from Taiwan, Megla Rozsa designer from Hungary, Mr. Sylvia Calvo from Spain, Mohammad Fawad Noori from Pakistan and Mr. Andrea Lazzari from Italy were also there.

Art and Printing Techniques' and conducted a workshop on 'Different Techniques of Tie and Dye used in India'. She also briefed about the remunerative and satisfying avenues available through the long-term job oriented Under Graduate and Post Graduate Programmes conducted by FDDI in the area of footwear, leather, fashion industry and the retail sector.

She also showcased the tie & dye collection with traditional art work and ornamentation on them which depicts the rich tradition of Rajasthan, India which was applauded by everyone.

The videos and photos of the presentation were also shared on official facebook page and other social media of GSFW by National Fashion League Budapest.

DPIIT proposes tax sops for start-ups

The Commerce and Industry Ministry has proposed a host of measures such as tax incentives to promote budding entrepreneurs as part of the 'Startup India Vision 2024', an official said.

The vision document aims at facilitating setting up of 50,000 new start-ups in the country by 2024, and creating 20 lakh direct and indirect employment opportunities.

The Department for Promotion of Industry and Internal Trade (DPIIT)

Certificate of Acknowledgement awarded to Ms. Monika Choudhary, Faculty - FD, FDDI

On 11th April 2019, Ms. Monika Choudhary, Faculty - FD represented FDDI, India at GSFW 2019 at LA Prima Fashion Hotel, Budapest. She gave a presentation on 'Indian Traditional

under the ministry, which has prepared the document, has also suggested setting up of 500 new incubators and accelerators by 2024; 100 innovation zones in urban local bodies; deployment of entire corpus of Rs. 10,000 Crore Fund of Funds; and expanding CSR funding to incubators.

The other measures include setting up of Rs. 1,000 Crore 'India startup fund' to support high technology start-ups; providing Rs. 1,000 Crore of seed funding; and operationalisation of seven research parks by 2024.

"The DPIIT wants to strengthen the complete ecosystem for startups and these measures would help in doing that. It will be presented to the new government for their consideration," the official said.

As part of regulatory easing, the vision document proposes to reduce

compliance burden, setting up of regulatory sandbox for testing of financial products; tax incentives for investments in startups; reduction of Goods and Services Tax (GST) rates; tax exemption for ESOPs; and exemption of angel tax on all investments by Alternate Investment Funds.

A regulatory sandbox usually refers to live-testing of new products or services in a controlled and test regulatory environment for which regulators may or may not permit certain regulatory relaxations for the limited purpose of the testing.

Further it suggested that banks should set up a single window system to give loans to startups.

Startup India is the flagship initiative of the government, launched in January 2016, intends to build a strong ecosystem for the growth of startup businesses, to drive sustainable economic growth and generate employment opportunities. The Startup India action plan provides tax and other incentives.

So far, as many as 17,984 startups have been recognised by the department.
